Our Honoree, former Congressman Patrick Kennedy, has been a friend and advocate for Community Care Alliance for many years. We recognize him for standing on his family legacy and public platform and declaring his lived experience of recovery. He has advocated for change in a system that desperately needed a hero, resulting in access to treatment for millions of Americans suffering from illness of the brain. But the work is not done. Patrick Kennedy continues to elevate the conversation and has changed how we think about and treat mental health and addictions.
